

**Guidelines for series approval of products for
USB Driven Barcode Reader, Barcode Scanner,
Iris Scanners, Optical Fingerprints Scanners**

Basic Configuration	Grouping as one series provided product has
USB Driven Barcode Reader, Barcode Scanner	<ul style="list-style-type: none"> • Same input voltage and current • Same battery nominal voltage and capacity

Basic Configuration	Grouping as one series provided product has
Iris scanners, Optical fingerprints scanners	<ul style="list-style-type: none"> • Same enclosure except for differences of decorative parts

Guidelines for Quantitative Selection of Samples

- A series may consist of 10 models.
- Unless specified otherwise, one sample may be tested for each series.
- In any of the above consideration, worst case configuration from Safety Design perspective must be selected for testing.
